Description

The R15-000-PL-PF-NL Plastic range of Access Panels are simple to install and suitable for walls where regular maintenance to services is required or simply used to fill unsightly holes, saving the need for expensive repairs.

Construction

Manufactured from 3mm thick high impact styrene plastic with U.V stabilizers which will not fade or corrode and a white textured surface to allow for painting over. The push plastic door has a picture frame detail with a simple pin hinge to allow the door to be completely removed. Opened using a coin or flat head screwdriver.

Tests

The Panel is not Fire Rated.
The Panel is not Acoustic rated.
The Panel is not Air Pressure tested.
The Panel is not Smoke Tested.

Seals

Draught Seals **NO**, Smoke Seals **NO**, Air Seals **NO**, Acoustic Seals **NO**, Intumescent Seals **NO**

Sizes

152x102mm
203x203mm
228x152mm
305x305mm
355x355mm
457x457mm

Fitting

Please note that on installation of the access panel, the actual size of the structural opening in the wall needs to be 5mm larger than the overall panel size eg. Structural opening for 152 x 102 would need to be 157 x 107 (See sizes above).

Either glue in place using a suitable adhesive or screw through the upstand of the frame into a prepared timber / steel lined opening ensuring the frame is pushed up against the structural opening surround.
